

## FINAL WORDS FROM SCIENTIST DR MICHAEL WOLF

An interview conducted  
by Paola Harris © May 2000

**I**talian journalist and UFO researcher Paola Harris has interviewed Dr Michael Wolf several times, and below is the transcript of her last interview with him, conducted on 8 March. Tragically, after a long illness, Michael Wolf, MD, PhD, died on 18 September.

Dr Wolf established a non-profit fund, The Daniel Wolf Memorial Foundation for Children, Inc., in memory of his son, and the organisation is continuing its charitable work following Dr Wolf's passing.

Readers who haven't read about the life and work of this extraordinary US military/intelligence scientist are referred to *Twilight Zone* in NEXUS 4/02 and Dr Richard Boylan's articles in 5/03 and 6/01. Dr Wolf's book, *The Catchers of Heaven*, was reviewed in NEXUS 4/06. — Editor

**Paola Harris (PH):** There is a growing consensus that the public is being gradually conditioned for eventual disclosure on UFOs and extraterrestrials. Do you think this is an accurate perception? Is the public ready for disclosure?

**Dr Michael Wolf (MW):** This will be true because the group that I am still advising is using The Learning Channel and the

Discovery Channel to get people acclimated to the idea that we are not alone. The Learning Channel and the Discovery Channel do not produce fiction. This is an accurate perception. It is all factual.

**PH:** Is the public ready for it, in your opinion?

**MW:** Some are; some are not. The people who believe that they are the centre of the Universe are never going to change their minds till one lands in their backyard, then they'll say that it might be a Disney thing. The same people who don't believe in UFOs don't believe that man ever went to the Moon.

**PH:** Are the lawsuits by Peter Gersten of CAUS [Campaign Against UFO Secrecy] having an impact in the intelligence community?

**MW:** No. They are not considered an important problem.

**PH:** There have been increasing numbers of sightings of extremely large triangular craft, including over Belgium and Phoenix, Arizona, and there have been recent reports from Illinois police. What can you tell us about the origins of this triangular craft? What is its agenda? Who is flying it?

**MW:** Well, the very large ones are not being flown by humans. Maybe there are some triangular experimental craft, but they are not completely silent and we are miles...not miles away, but *years* away

from recreating antigravity vehicles, to my knowledge. We are *years* away from duplicating UFOs, as far as I know. Some triangular vehicles...some of them are said to be, like, three football fields' length and width and there is nothing to keep them up there. They are defying gravity.

**PH:** What about Illinois? Have you heard about this?

**MW:** They are coming from all over. The Phoenix lights were huge, and that was a blatant cover-up. They said: "Oh yes. We were putting up flares." Flares fall. These Phoenix lights did not fall. They put flares up to try to confuse people.

**PH:** There is a division in the field of ufology as to the alleged benevolence or hostile nature of ETs, including implications that many violent abductions are staged Black Ops meant to propagate fear and suspicion against aliens. Do you concur regarding these violent abductions, and what is your opinion on the benevolent/hostile issue?

**MW:** There are minimalistic negative abductions. John Mack's new book [*Passport to the Cosmos*], which I just received from him, does point to a transformation of most abductees, as to multiple abductions by aliens alone, and yes, there have been somewhat sloppy abductions by humans parading as aliens or human-form aliens wearing human uniforms, and yes, there are anti-alien forces trying to confuse

# THE TWILIGHT ZONE

people about abductions. Military abductions are not as widespread as a lot of people think.

**PH:** Okay, now how would they do that? Are they cloned aliens or are they like holographic images?

**MW:** They are more like holographic images. As the matter of fact, I know of several cases when they [abductees] were able to put their arms and fingers through these so-called aliens which weren't aliens, and then occasionally they would see a uniform and a human. They made errors in the holographic program.

**PH:** The public is asking your opinion on the benevolent/hostile issue.

**MW:** Most are benevolent. Occasionally some get through the alien barrier, but they don't generally come back. They don't come back here once they are spotted and identified. Once they have hidden agendas, once they are identified, they are barred from coming here

**PH:** Who does this? Do we do this? Do the benevolent aliens...?

**MW:** Benevolent! [He laughs.] They are not goodie-goodie, but they don't want negative interference for the most part. They [negative aliens] might get through occasionally, and that is what anti-alien ufologists point out. But those are out of myriad races and they are few and far between.

I think John Mack is possibly one of the

best experts on this subject. I completely go along with him, and he has read my book and he does agree completely with me. He is telling it the way it is. He does not interpret data. He collects massive amounts of data. He says that these "so-called" negative abductions are one-tenth of one per cent of all the rest of them. It's ones who misinterpret deliberately who have anti-alien agendas and—we all know who they are—write in their books that they [grey aliens] are robotic; and no grey is robotic unless it is a holographic projection by humans. Next!

**PH:** Can you expand on the dual nature of man, and how you see it relating to the Hopi prophecies regarding the fate of our planet for the year 2012?

**MW:** I don't think we have anything to worry about. Gradually the whole world is going to know that we are not alone. There are two cable channels, the Discovery Channel and The Learning Channel, which never produce fiction: Discovery, to discover the truth, and The Learning Channel to learn about it. They have been producing positive evidence of alien intervention in human affairs to try to keep us away from such prophecies. Prophecies are not written in stone: they can be changed by man.

**PH:** They can be changed by man?

**MW:** Why do you think God gave "free will" rather than make us subjects of one "reality".

All the goodness has already been planted like trees and is sprouting. Read the book and read the truth in it...

**PH:** What about going into the "fifth world", as Native Americans believe—going from the "fourth world to the fifth"? Is that just a

world of enlightenment, then?

**MW:** It is more figurative; not literally a fifth world—I mean, we don't know even the "fourth" dimension. We can do the fourth dimension in math and physics. There are many dimensions—at least eleven.

**PH:** Are you still planning an appearance at the Star Knowledge conference in Atlanta, Georgia, this May 5th? If so, what will be the theme of your presentation there?

**MW:** No. I am going to be very busy working on "enlightenment programs" to let people know that most of the civilisations are just passing through like tourists, and those who are interested...I'd say the majority of those who are interested have plans for us that are "good" plans. They don't want us destroying ourselves. I'm working on *The Bright White Light Quartet*. I am also ill.

**PH:** We have heard that you are suffering from numerous maladies and complications. Do you have any requests for prayer and light in that regard from those who support you?

**MW:** I've already been receiving it and I am very grateful. Don't forget, for 48 years from the age of ten I have been exposed to toxic substances. That was part of my work, just like those who...that group in Area 51 who want a class action lawsuit, who have suffered from working on "black programs"—and so did I.

**PH:** Well. That's pretty clear.

**MW:** That's as clear as you're going to get!

## DR WEN HO LEE AND SECRET RESEARCH INTO INTERDIMENSIONAL PORTALS

by Richard Boylan, PhD © 2000

This story may exceed what you are accustomed to consider as reality. But because advanced research and development into extraterrestrial-derived technology has taken place for the last 50 years out of public view, the popular view of reality is almost five decades behind actual scientific achievements.

To process this story, it helps if you accept that the government is not totally forthcoming in the news stories it feeds the media. It also helps to realise that the government uses the word "nuclear secrets" as

Dr Michael Wolf, photographed with journalist Paola Harris.

a code-phrase for all kinds of secret advanced technology, such as antigravity propulsion and psychotronic remote-influencing devices, and not just for atomic weapons.

An ex-NSA consultant, who has been reliable in the past, informs me that government scientists working at Los Alamos "Nuclear" Laboratory, New Mexico, have succeeded in generating a holographic portal. They have used this portal to travel across space-time and possibly interdimensionally, and have seen into another world. What they saw there, my informant says cryptically, both frightened and intrigued them. He did not add any additional details.

This research would be a follow-on to previous successful, secret government research into time travel and teleportation. Los Alamos physicist Robert Lazar told about the government's Project *Galileo* research into time travel, which he was briefed on when he worked at the S-4 Base south of Area 51.

My NSA contact confirmed that the government has succeeded in time travel, but also considers it a dangerous technology. Teleportation research conducted at the Lawrence Livermore/Sandia National Laboratories, California, has had some successful results as well.

Certain extraterrestrial races have been using portals of their own devising to visit Earth. Now the US government, ever avaricious to copy ET technology, has created a primitive working model of its own.

Dr Wen Ho Lee, nuclear scientist in the headlines, worked on that holographic portal project, along with other scientists.

You will recall that Dr Lee was accused by the government of copying US "nuclear secrets" onto a non-secure computer tape. In the previously lax security environment of the professorial Los Alamos Labs, run by the University of California and accustomed to informal exchange of information among research colleagues, such "lapses of security" have been epidemic. If every LANL scientist who took short-cuts around certain security measures were prosecuted, Los Alamos would be a ghost town.

Why, then, was Wen Ho Lee singled out for such a severe and unconstitutional nine months of imprisonment without bail and defamation by headlines? What does Dr Lee know about portal secrets, that the government used the severest measures to

silence and discredit him?

Recently, a plea-bargain was entered into by the US government and Wen Ho Lee, in which 58 felony counts were dropped, and US District Court Judge James Parker apologised to Dr Lee for government misconduct which has "embarrassed this entire nation".

My ex-NSA consultant indicated that the plea-bargain was achieved because Dr Lee, like so many who work in National Security areas, created a "get out of jail free" card for himself. These scientists use self-protective measures such as stashing information embarrassing to the government in safety-deposit boxes or with trusted friends—with the proviso that, if anything should happen to them, the contents would be shared with the press.

The efforts of Dr Lee's family, many friends and the Asian-American community also helped create a public climate where Dr Lee was not going to serve quietly as a sacrificial lamb.

## Postscript

"They" did not want you to have this story. When my ex-NSA informant e-mailed me this information, someone penetrated his state-of-the-art encryption and implanted a virus which caused my server to freeze up on his exact message and not download it, and thus blockade all my other incoming e-mail messages. It took two days of work and technical support help to develop a go-around of the freeze-

bug. Now, I am a mild-mannered reporter, but when "they" try to prevent the truth from coming out, I just become more determined to have it see the light of day. And here you have it.

## NINE DAYS BETWEEN WORLDS Dave Alan's Extraordinary Out-of-Body Experience by Rayelan Allan © 2000

Talk America talk show host Dave Alan suffered a massive brain-stem stroke—the kind that is almost always fatal—and lived!

For nine days, while his body lay in bed, attached to machines that were keeping him alive, Dave Alan wandered around the hospital and talked to people who had died but were still trapped in the Earth plane.

He says, "They were afraid to go on."

Dave spent time talking with each of these souls. He was able to help them make the transition from this world to the next. When he had finished sending the souls to God, he came back into his body and awoke.

Most people who suffer a massive brain-stem stroke do not survive. Eighty-seven

# THE TWILIGHT ZONE

per cent of those who do survive are paralysed from the neck down. Most have lost their ability to speak and have brain damage.

Dave has *no* damage whatsoever to his mental capacities. His voice has changed, but *not* from the stroke. The damage to his voice came from the tubes that kept him alive. A tracheotomy had to be performed. The doctor says that he will have his voice back in a few more months. Dave's left arm and left leg are paralysed, but each day they are getting back to normal. A full recovery is expected.

But will he *ever* be the same?

Dave says his experience "between worlds" was so incredible that he is still "processing". He knows he will eventually write a book, because he *now knows* there are many other dimensions besides Earth, and he *also* knows that we are definitely *not* our body!

"We are spirit, and our spirit is too strong to be trapped by any body!" Dave says. "The experience showed me there are a lot of dead people that hang around hospitals. They are yoked down to Earth and unaware of *any* higher spiritual consciousness. When they die, they are lost. They don't know what's going on. They don't understand it. No one has ever told them what to expect.

"They just sit there...maybe forever, wondering where to go, or if they *can* go... if they are *allowed* to go. Some people...I mean, some of these souls didn't want to

listen to me. Others were listening, sitting there and looking at me.

"I was seeing people...beings who had died a long time ago, walking around lost... sitting...waiting. Some had no idea what they were waiting for. Some said they were waiting for St Peter to come get them. Others said they were waiting for Jesus to return and revive their body.

"They were in limbo. Some listened to me and followed what I told them to do. As they floated upward and disappeared into another dimension, I could feel their loving presence around me. I could hear their voices thanking me. They said they could see the light and hear voices. They thanked me for setting them free."

Dave says that he never went down any tunnels. He said that at no time did his body actually die; the machines kept it alive. But for nine days, he stayed "between worlds", at the opening of the tunnel—the one that went to other dimensions. This was where all sorts of souls who were afraid to leave the Earth plane had gathered. It seems as if God had sent Dave to help the souls go home.

Dave says that at other times he felt he was convalescing on another plane in what appeared to be a private home. On the wall, a little door opened up. "Two little...two-foot-tall beings... Indonesian-looking women" walked out of the door. They walked down the wall and popped up onto his bed.

They were very friendly and kept telling

him he was okay. They performed normal nursing jobs while they healed him and gave him light and love. They bathed him, changed his bed, took his temperature and did all the things a regular nurse does.

Dave says he had flowers in his room, and he could communicate with them. He said if he asked the flower to move to the left, it would. If he asked it to move in another way, it would move that way. He said he kept thinking that he wanted to call his kids in and let them watch the flowers as he made them dance.

He could leave the house and walk down by the lake. He said that wherever he went there was always a glowing energy in the atmosphere, an energy that was different than the Sun's. In this place, he met beings who could shape-shift and become any kind of creature or animal they wanted. He said they performed in front of him because they wanted him to know that we are *not* our body—we are *much more* than our body. Dave Alan is no longer afraid of death.

Dave is currently looking for a ghost-writer who will help him write his book, which he was told will be a best-seller. He was also told that he didn't die in this life because there is a lot more work for him to do. Sharing the experience of what happened during his nine days "between worlds" gives people hope that when they die there is a whole new world waiting.

Back in the early 1990s, Dave was one of the only radio talk show hosts who was covering the New World Order and the erosion of liberty in the United States. His guests included leaders of the militia movements, constitutionalists, gun rights advocates and investigators of government crimes and corruption.

To get an idea of what Dave was like before the stroke, pull up this article written about him shortly after his stroke: [www.egroups.com/message/RuMills/296](http://www.egroups.com/message/RuMills/296).

Then listen to the New Dave Alan on the Talk America Radio Network: [www.talkamerica.com](http://www.talkamerica.com). Dave is on network #2 from Monday to Friday, 7 to 8 pm Pacific Daylight Time, and Sunday 10 pm to midnight PDT. You can leave a message for him at (888) 822 8255 (North America only). If you are local in the Santa Cruz, Monterey Bay area, you can listen to Dave on KSCO 1080 AM, same times as above.
